

Stelios Athanasiou

Software Engineer · MSc Student, Computer Science — University of Crete

Heraklion, Greece | athanasioust@hotmail.com | +30 6934547477 | github.com/Athanasioust

Education

MSc in Computer Science — University of Crete (CSD-UOC) Heraklion, Greece	<i>Ongoing</i>
BSc in Computer Science — University of Crete (CSD-UOC) Heraklion, Greece	<i>Sept 2020 – Sept 2025</i>
High School Diploma — 5th Lyceum of Heraklion Final grade: 19.7 / 20	<i>Sept 2017 – June 2020</i>

Selected Projects

Facial Recognition Attendance System v2.0 *Python · InsightFace · ArcFace · CUDA · Thesis*
Automatic classroom attendance via RetinaFace detection and ArcFace 512-d embeddings, GPU/CUDA accelerated with automatic CPU fallback. Vectorized cosine similarity matching, EXIF-rotation handling, and a headless batch evaluation tool. Diploma thesis with Prof. Yannis Tzitzikas.

ASL Recognition — PyTorch vs TensorFlow *Python · PyTorch · TensorFlow · CUDA · MediaPipe*
Real-time ASL alphabet recognizer that benchmarks identical CNNs in PyTorch and TensorFlow under matched conditions. CUDA-accelerated training, MediaPipe-based live hand tracking, and side-by-side latency and VRAM profiling via pynvml.

PokerCalc *React Native · TypeScript · Expo · Android*
Live poker odds calculator for Android (Texas Hold'em & Omaha). Features 2-tap card input, draw detection with outs, pot odds evaluation, multi-way equity against up to 3 opponents, and session profit/loss tracking.

Sanctum — D&D 5e Campaign Manager *TypeScript · Next.js · React · SQLite · Drizzle ORM · Tailwind CSS · shadcn/ui*
Local-first campaign management tool for D&D 5e Dungeon Masters. Full 5e character sheets, initiative-based combat tracker, nested world maps with image pins, story timeline, faction and shop management, and custom in-world calendars — all stored in a single SQLite database with no account or cloud dependency. Automatic daily backups and per-campaign JSON export/import. Licensed under AGPL-3.0.

Syscall Monitor & Network Analyzer *C · Linux*
Linux security toolkit: a ptrace-based process monitor that traces and logs syscalls at runtime, plus a pcap network analyzer that filters traffic by IP.

Custom Unix Shell *C*
Lightweight Unix shell supporting command execution, I/O redirection, sequential commands (;), and single-pipe piping.

Alpha Language Compiler *C*
Full compiler implementation covering lexical analysis, parsing, semantic checks, and code generation.

Experience

Teaching Assistant — HY225, CSD-UOC *2025 – Present*
University of Crete, Heraklion, Greece

- Ran laboratory exercises for CSD undergraduate students.
- Designed original assignments and conducted student assessments.
- Explained course concepts and supported students with homework.

Strengths & Languages

Strengths	Hard-working · Fast learner · Eye for detail · Motivator
Languages	Greek (native) · English (C2)
Driving Licence	Category B (car)
