

Stylianos (Stelios) Athanasiou

Software Engineer · MSc Student, Computer Science — University of Crete

Heraklion, Greece | athanasioust@hotmail.com | +30 6934547477 | github.com/Athanasioust

PROFILE

Computer Science graduate of the University of Crete (CSD-UOC) currently pursuing a Master's degree at the same department. Hands-on software engineer with an active GitHub portfolio across systems programming (C/Linux), compilers, security tooling, computer vision, and full-stack web. Fast learner with an eye for detail; equally comfortable owning a project end-to-end or contributing in a team.

EDUCATION

MSc in Computer Science — University of Crete (CSD-UOC) *Ongoing*
Heraklion, Greece

BSc in Computer Science — University of Crete (CSD-UOC) *Sept 2020 – Sept 2025*
Heraklion, Greece

High School Diploma — 5th Lyceum of Heraklion *Sept 2017 – June 2020*
Final grade: 19.7 / 20

TECHNICAL SKILLS

Languages	C, C++, Java, Python, JavaScript, HTML/CSS, SQL
Systems	Linux/Unix, ptrace, pcap, syscalls, shell internals
Web & DB	Node/JS frontends, MySQL, Apache Tomcat
Areas	Compilers, systems programming, security (CTF), computer vision, full-stack
Tools	Git/GitHub, GCC, GDB, Make, VS Code

SELECTED PROJECTS

Syscall Monitor & Network Analyzer *C · Linux*
Linux security toolkit: a ptrace-based process monitor that traces and logs syscalls at runtime, plus a pcap network analyzer that filters traffic by IP.

Custom Unix Shell *C*
Lightweight Unix shell supporting command execution, I/O redirection, sequential commands (;), and single-pipe piping.

Facial Recognition Attendance System *Python · Computer Vision · Thesis*
System for automatic attendance counting from classroom photos using facial recognition. Diploma thesis with Prof. Yannis Tzitzikas.

Compilers 2025 *C*
Compiler implementation including lexical analysis, parsing, semantic checks, and code generation.

Spotify Analyser *Python · Spotify Web API*
Analyses personal Spotify listening data with insights on top artists, tracks, genres, and habits.

PIERR — Career Matchmaking App *UI/UX · HY364*
Designed an internship and career matchmaking application end-to-end (research, wireframes, hi-fi prototypes).

Pet-Keeping Service Website *Full-stack · HY359*
Complete backend and frontend development of a pet-keeping service web application.

Database System with MySQL & Tomcat *SQL · HY360*
Built a full database operation interface backed by MySQL and served via Apache Tomcat.

PAYDAY Board Game *Java · HY252*
Java implementation of the PAYDAY board game with full game logic and state management.

EXPERIENCE

Customer Service — Lyttos Beach Hotel, Anissaras *July 2023 – Oct 2023 · July 2024 – Oct 2024*

- Front-of-house guest service in a fast-paced summer-season hotel environment.
- Built strong communication, reliability, and teamwork skills under peak load.

Lifeguard — Water City Water Park, Heraklion *Summer 2020 · Summer 2021*

- Ensured the safety of guests across water park facilities.
- Maintained constant vigilance and responded swiftly to incidents in a high-traffic environment.

ACHIEVEMENTS

- Completed the HY457 (Computer & Network Security) CTF challenge.
- Solved a large number of PicoCTF challenges across Forensics, Web, Misc, Reverse Engineering, and Crypto.
- High school diploma with a final grade of 19.7 / 20.

STRENGTHS & LANGUAGES

Strengths	Hard-working · Fast learner · Eye for detail · Motivator
Languages	Greek (native) · English (fluent)
Driving License	Category B (car)
